

Victor Spichenkoff Santana

SOFTWARE DEVELOPER

Software developer with 3 years of experience in TypeScript, Node.js, C#, and Next.js. Passionate about solving complex challenges, continuously learning modern technologies. Strong team collaborator, dedicated to contributing to collective success and delivering innovative solutions. Seeking an opportunity to add value and grow alongside forward-thinking company.

PROFESSIONAL EXPERIENCE

PAGINATION TEST API - FREELANCER

[Access the documentation](#)

- REST API developed to help the creation of paginations, being dynamic and highly configurable. Includes 10 different inputs for sorting and frontend integration for intuitive testing. Since users are 70% more likely to have a pleasant experience with an interface, I also created a [sandbox](#) website;
- **Challenges:** Innovative project; Documentation writing; Integration with third-party API (pexels);
- **Technologies:** Next.js, Express, Pexels, node, Figma

PROMOTIONAL [PORTFOLIOS](#) WEBSITE- FREELANCER

[I'm here too](#)

- Acting as **project leader**, I worked on implementing the website, creating the API and integration with the frontend and database management;
- Website with **authentication**, guest login, infinite scrolling, text editor and more!
- **Challenges:** Need to learn and implement quickly; Deploy frontend, backend and database on my own;
- **Technologies:** Next.JS, TypeScript, MySQL, Node, Prisma

NPM PACKAGE - OPEN SOURCE

[Visit](#)

- Package created to automate the creation of express projects; Great customization and variety of options;
- Over 1000 users in one week on npm;
- Start and configure a project with 1 command
- Test it! **npx vss-express** on any terminal with node
- **Challenges:** Understand the entire operation and configuration of an express project, in order to create a great customization and security;
- **Technologies:** C#, .NET, Javascript, NPM, Terminal

PERSONAL PROJECTS HUB

LANGUAGES

English - B2

Portuguese - Fluent

SOFT SKILLS

- ✓ Teamwork
- ✓ Good communication
- ✓ Willingness to learn
- ✓ Adaptability
- ✓ Deadline management
- ✓ Agile Development

EDUCATION

FULLSTACK DEVELOPMENT

Cod3r

August/2022- December/2023

Learned: React | Next.JS | Angular | Vue | Express | JavaScript (ES6) | Nest.JS

MULTI-TECH COURSE

B7Web

January/2024 - April/2025

Learned: HTML5 | CSS3 | JS | TS | SEO | React | Next.JS | Git flow & GitHub | Docker | Express | Node.JS | Tailwind

BACHELOR DEGREE IN SOFTWARE ENGINEERING

Centro Universitário Internacional

February/2024 - December/2027

Learned: Requirements analysis | Object Oriented Programming | Team Work | Mobile Design | Figma & Prototype

COMPLEMENTARY COURSES

- **Google** Cloud Computing Foundations: Infrastructure in Google Cloud
- **Cisco** - Endpoints Security
- **Books** - Clean Code, Python Crash Course
- **Others** - Python, C# and .NET, Prisma ORM, TypeOrm
