

Victor Spichenkoff Santana

FULL STACK DEVELOPER

Web and Back-end Developer with 3 years of experience, passionate about Software Engineering and building efficient applications. I enjoy collaborating in teams to explore new technologies, tackle challenges, and contribute to the success of the group. I'm eager to bring value with innovative solutions and grow alongside your company!

EXPERIENCE AND PROJECTS

[PORTFOLIO](#) SHARING SITE - FREELANCER

[Visit my profile here](#)

- Acting as **project leader**, I worked on implementing the website, creating the API and integration with the front and database management, in addition to **deploying all three**;
- Site with **authentication**, guest login, infinite scrolling, text editor and more!
- **Technologies**: Next.JS, TypeScript, MySQL, Node,

API TO DEVELOP PAGINATION - FREELANCER

[Access documentation](#)

- REST API developed to handle the creation of paginations, being **dynamic** and **highly configurable**. Includes 10 different inputs for sorting and frontend integration for intuitive testing. I also created a sandbox [site](#);
- **Challenges**: Innovative projects and documentation writing;

NPM PACKAGE - OPEN SOURCE

[Visit](#)

- Package created to **automate** the creation of express projects;
- Great customization and variety of options;
- Start a project and configure it with just **1 command**.
